KEY TO THE PROPERTIES OF OUR PRODUCTS.

W

WOMAN

M

MAN

U

UNISEX

NP

NEW PRODUCT

ND

NEW DESIGN

NC

NEW COLOR

UNISEX

Suitable for both sexes

CUSHIONING

Less impact to the body.

ASIMETRIK

Right and left distinguished garment for better application of benefits to the body.

BIDIRECTIONAL

Structure of bidirectional fabric, freedom of movement.

ESP STRUCTURE

Ergonomic design with a protection system.

SEAMLESS

Ready-made seamless.

REFLECTIVE

High visibility strips.

AIR WAVES COMFORT

Cushioning and comfort with optimized ventilation channels.

ULTRALIGHT

Do not use external materials which may cause friction.

LIGHT WEIGHT

Light clothing.

EXTRA ADJUSTMENT

Maximum adaptability

HIGH PERFORMANCE

Ideal for extreme situations.

DOUBLE HEEL

Specific reinforcement in the heel area.

There are multiple qualities encompassed within our products. To quickly recognize them, we represent them with a series of graphic codes detailed here in a dictionary so that you can easily understand them.

STANDARD FIT

Straight cut

SLIM FIT

Second skin effect/tight

COMPRESSION FIT

Exercises gradual compression

SECOND SKIN

Second skin garments, improved features.

ADAPTABILITY

Fits the body surface

ANTIBACTERIAL

Prevents the entry of and creation of microbes

LOW COMPRESSION

Low compression to the body

MEDIUM COMPRESSION

Medium compression to the body

HIGH COMPRESSION

High compression to the body

ERGONOMIC

Allows use of the garment without discomfort

ADJUSTABLE

Flexible secure fitting

WRINKLE FREE

Avoid annoying wrinkles

REINFORCED

Increased resistance of the garment

FACTOR 50+

Protects your skin from the sun

BREATHABLE

Repels moisture from the garment

THERMAL REQUIREMENTS.

Lurbel develops each garment bearing in mind the specific environmental conditions of each sport and the needs of the athlete at each moment.

COOL FEEL COOL /FEEL COOL +D

Anti-bacterial, odourless and maximum transpiration properties. A very specific use for sport at high temperatures.

+D (High Density) Denser and thicker structure. The thermal range of use is wider (colder conditions).

TECH FEEL THERMOTECH

Body thermoregulation. Anti-bacterial, odourless and high transpiration properties. A very specific use for sports and different weather conditions.

THERM FEEL THERMO PLUS

Temperature retention. Anti-bacterial, odourless properties and good transpiration. A very specific use for sport at low temperatures.

XTREM FEEL THERMO XTREM

Maximum temperature retention. Bactericide and odourless properties and good transpiration. A very specific use for sport at very low temperatures.

4 DENSITY-RATE SYSTEM.

DENSITY 1

Maximum breathability and lightness

DENSITY 2

Maximum comfort and durability

DENSITY 3

Maximum consistency and performance

DENSITY 4

Maximum protection and thermal insulation

Four density system. A structure for each type of garment. An item of clothing for each sport.

More than 25 years of excellence in textile manufacturing allows us to apply the innovation that is born in our R&D laboratories in sportswear that makes a difference.

With the degree of wisdom and experience of our expert weavers and the latest textile technology in the market, we are able to develop fabrics that maximise the performance of our technologies.

We have therefore defined a new system of 4 different fabric densities, adapting each item of clothing to the nuances required by the environmental condition and physical activity in question. In addition, the said density system allows us to position each item of clothing according to its thermal requirements.

In the world of Lurbel's technical clothing, there's no room for "one for everything".

Your Lurbel garment and your body will work coordinated to meet the demands of your sport of choice at all times to find the right balance that allows you to find the best version of the athlete in you.

RUNNING SOCKS.

Run on asphalt with as much protection as possible and keep friction, overheating and humidity under control.
